" SHRINES OF LIGHT" *** * * * * * * INTRODUCTION

"SHRINES OF LIGHT" IS THE THIRD IN A SERIES OF FOUR MANUSCRIPTS WHICH I am preparing for general public dissemination of the healing or perfecting technique of The Etherian Epoch of the New Aquarian Cycle.

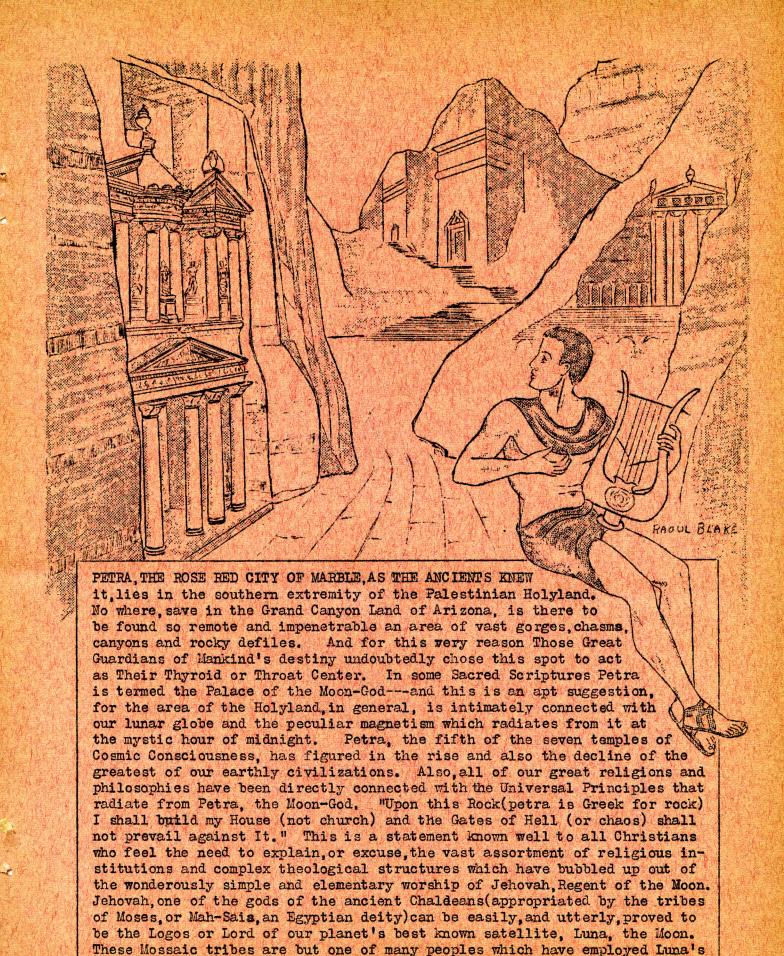

HIS PERFECT PLAN is the fourth, and last, of this particular series; and will be released as soon as I have been able to judge the reactions of my readers to TEMPLES OF HEALING and HIS HEALING HEARF, the first and second manuscripts on Etheric Techniques for self-development.

The extraordinary nature of this instruction has occasioned widespread comment from many circles of metaphysical thought—and theory. While a certain amount of conflict with the established principalities of occultism and New Thought was anticipated. I did not remotely imagine that my first speculative efforts would arouse such intensity and vigor in those groups. Being completely denounced and discounced by several societies (for whose good I had labored many years) I am taking my Plan directly to the general student-body, confident that the humble members of these organizations will demonstrate that instinctive perception of the Truth—which their leaders have obvious forfeited as they have in turn grown rich and fat with smug complacency.

The knowledge presented in these four booklets is overwhelming in its implications. It is astonishing in its significance. And it is perhaps. bewildering in its possibilities for our personal progress and prosper-But then, are we not living in an age that is breathtaking in its ity. daily achievements in every field of human endeavor? Are we not truly. miracle-workers in a miracle-age? Do not the material possibilities of this age of wonders suggest an equally amazing spiritual potential? Has it not been implied in many Scriptures, profane and sanctified, that we are, indeed, gods-in-the-making? Are such propositions, formulated by the genius and validated by the divine integrity of The Way-Showers of all Ages, are such ideas merely the sentimental froth of rhetorical symbolism? Or are they to be understood literally, applied specifically and confirmed My answer is: We ARE gods. For over a period of scientifically? fifty years I have sought The Gods. Finally, amazingly, dramatically, magnificently I have lived with The Gods more than five incredible years.

In these manuscripts, designed for a tiny circle of courageous students, I am endeavoring to explain what I have learned during my Residence with The Gods; in order that YOU, if you choose may recieve the same knowledge, make the same application of it, and become what I, someday, KNOW I shall. Come with me, all you who are weary of this mortal mess we call civilization. Confidently, gladly, I can take your hand—for I know THEIRS is in mine; and through me, through you and yours, THEIR LIGHT will re-make all things anew.

exotic magnetism in the development of their national culture and philosophy

PETRA, THE CITY OF RED MARBLE PALACES, CLOISTERS, AND CAVERNS IS RIGHT OUT of the story books. Indeed, the tales of Ali Baba and the Forty Thieves is known to children of all lands——and it is known to the serious students as a secret explanation, in story form, of the wonders of ancient Petra and its fabulous history. The caverns within this ancient stronghold of the Light are both manmade and hewed by nature herself; and their beauty is dazzling beyond description, since it is of purest marble, in hundreds of rainbow tints. The caverns have been used by many nations down through the ages for various purposes. But regardless of what their purpose, the peoples of each succeeding generation to use Petra have done so with a deep sense of reverence and respect for the sublime antiquity of the Magic Temple which Petra harbors deep within its immense center.

Some of historys greatest names are intimately associated with Petra, and its Brotherhood of Light. From China, India, Egypt and Tibet have come men and women of high station to apply for admission into this sacred Sanctuary of The Great White Brotherhood. Many have been refused entrance into the Inner Chambers of the High Court, but all have been welcomed into the Outer Halls of Divine Wisdom. The famous Grecian queen, Cleopatra, who reigned over Egypt for a short period, but who left her name etched eternally inthe in the romantic chapters of history, chose her name, Quel-Patra, as a token of veneration and respect for the magnificent Fraternity of Elder Brothers Who directed the destiny of Mankind from within the impenetrable heart of Petra, Temple of the Moon.

The Forces of Life which manifest through the fluidic, or watery, element are under the particular control of the Fifth, or Moon Ray. And since our fleshly bodies are said to be almost three-fourths composed of fluids, it is immediately apparent how greatly we are influenced by The Moon, and Petra. And as four-fifths of the surface of our planet is under water, the influence of the Rays of The Moon, moving first through Petra, gives us some idea of the vast importance of the Fifth Ray and its vibrations of energy.

While the radiations of the Fifth Power in our Cosmic Plan are pouring out constantly, it is during the hours of midnight to three in the morning that the magnetism of The Moon is especially operative and influential. The period when The Moon and Saturn (three A.M.) are exchanging vibrations is a time of great concern to all hospitals and institutions of healing, for this the time when the positive forces within our bodies are at their lowest ebb. Death frequently takes place at this strange moment of Saturn-Moon reaction.

Every land has its legends of the "witching-hour." Midnight is a time when strange and mysterious spells begin to hover over Mankind and produce moods that are utterly different from the feelings men have during the period of the Sun at noon-day. Midnight is a time, supposedly, valued highly by magic-workers of all sorts. Surely it is a time when the average human mortal is much more conscious of the presence of unearthly forces than at any other hour of the twenty-four. And there is very good reason for such feelings. Ghosts are supposed to walk, phantoms are said to come to life, and all the supernatural forces of the planet are supposed to be in stealthly operation.

PRACTICAL MAGIC, AS IT IS SOMETIMES CALLED, IS MOST EFFECTIVE IN ITS OPERation when The Moon is the dominant planetary influence underlying the invocation of astral or cosmic forces. Indeed, no magician worthy of the name would ever attempt to contact the Inner Power and release its Rays in to the material plane unless he had the assistance, and consent, of The Moon.

It is often a surprise to the inexperienced student to discover that these Rays of Cosmic Intelligence have also a personal aspect, or attribute, which enabled Them to consciously observe the use the student intends to make of Their Forces. The prayer, or invocation, directed to The Moon, to Mercury and the other Planetary Rays, is not a mere matter of form or empty rule. It is a reverent recognition, on the part of the magician or adept, of these very highly individualized Potencies or Personalities we call the planets. That which we see when we look into the night sky is but a dim reflection of the Cosmic Consciousness Who uses the planet, or star, for an instrument as literally as we use our physical bodies for expressions of our invisible nature, our soul, our spirit, our mentality—not symbolically, but actually!

Therefore, the student must, eventually, come to understand the planets for exactly what they are: Great Cosmic Realities, embodied in vast global or spherical forms, moving along a positive path of evolutionary development as certainly and as inexorably as ourselves in these tiny flesh bodies. (This tremendous idea will be developed in the last chapter of this booklet.)

The disorders or diseases of The Fifth Ray are entirely concerned with the fluids of our human bodies——as well as with fluids wherever they are found. Those diseases which are the result of too much, or too little, fluid in any our organic tissues, or the cells in general, have their inception, and also their control, in the schedule of The Moon's vibrations upon and through our aura, our magnetic force—field, or area of cosmic interplay; however one is thinking of that strange pool of psychic forces surrounding our human bodies.

And the larger number of our human diseases fall well within this category; a fact that all healers should be familiar with if they hope to correctly diagnose and successfully treat their patients. Every cell of our fleshly forms is vitally influenced by the rise and fall of the Moon's magnetism—as certainly as are the tides of the oceans the earth around directly, and irresistibly, influenced by the magnetic influences of The Moon Ray.

If the student will keep before him the pertinent fact that our fleshly cells are three-fourth water, it will more quickly enable him to grasp the immense influence of this mystic orb of reflected light as it moves through his horoscope with the precision of a railroad time-table. This influence of the lunar rays is dramatically seen in the vigil at the bedside of one who is fighting for his life. Medical men have long known that in the still hours of very early morning, from midnight to three, the crisis which grants life or death to the patient is often reached; but the doctors have seldom known why this is true. It is true because The Moon is the divine autocrat, the tyrant of time, who decides when our human destiny is finished.

ACADEMIC SCIENCE DECLARES THAT THERE WAS A PERIOD IN THE TIMELESS PAST OF our humanity in which our bodies were bi-sexual, containing both the masculine and the feminine polarities. Occult science confirms this, and further states that humanity must again, some day, return to that condition of bi-sexuality, or the blending of the two opposite polarities. Also, in the teaching of most occult systems can be found references to the fact of our ancient bodies being circular or spherical in shape—with the spinal column joined at both ends rather than separated as it is today.

When the spine was divided into two parts, or the sexes separated, the procreative powers were localized in the Root Center of Saturn at the base of the spine, and also in the throat or Moon Center. The Creative Word was said to be "lost unto future generations," as Adam and Eve were driven out of Paradise--or the state of unconsciousness of their personalities.

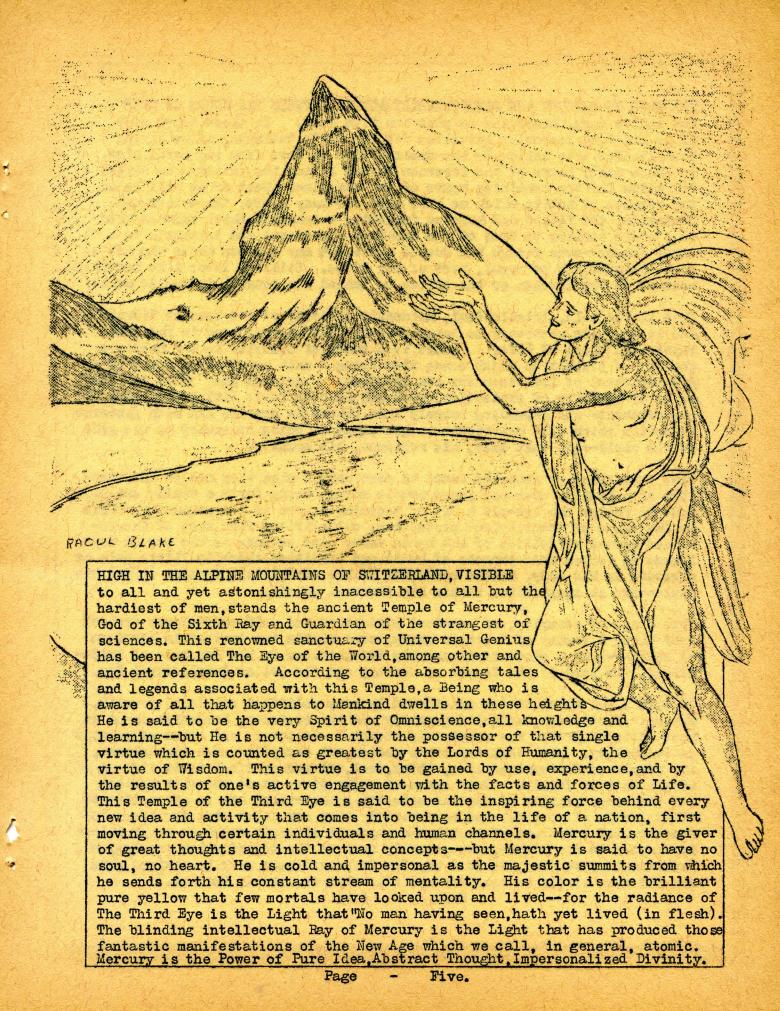

This "Lost Word" is uniquely a part of the Moon Ray, for the Throat Center controls the faculty of sound and speech. Sound is greatly intensified when it passes through water or fluids. Fish are often destroyed by the thunder that accompanies a storm; and a swimmer, with his head under water, hears sounds in great amplification.

One of the most common disorders of the Moon Center is that called goitre. This is an abnormal enlargement of the thyroid gland, the seat of the Moon Ray itself. A few years ago the fad of using salt containing iodine grew very popular. There is more than an incidental connection to be seen here. Iodine crystals have a beautiful irridescent purple color, in their pure or natural state. This is the cosmic color of the Moon, purple with overtones of all the other rays reflecting through it. Table salt has a strong reaction or affinity to water; thus, together the two elements of salt and iodine provide a remarkably effective solvent for the action of Moon Rays throughout the body. Especially would the iodized salt prevent a dangerous accumulation of the lunar magnetism which swells the thryoid gland to dangerous and painful proportions.

The Throat Center has been called the Center of Psychic or Astral Creation. However, it is not so much the creative center itself as the center which supplies the thought-patterns of Mercury with the substance, or fluids, we must have if our thoughts are to become realities—or to become crystallized by the freezing or solidifying Rays of Saturn, at the base of the spine.

The phenomenon of the common cold beautifully or painfully illustrates this affinity between Moon and Saturn. The chilling influence of Saturn crystallizes the pattern or mold into which the Moon pours an often unending stream of fluidic substance from the sinuses into the throat. One's eyes "water" abnormally and the entire system is flooded with a tide of fluid which disturbs the delicate balance in many of our bodily organs. Verily, a "common" cold, when seen from a Cosmic angle, is a brilliant partnership of several planetary principles working together for mutual good——regardless of how, in our limited human misunderstanding, we may view this Cosmic spectacle!!!!

THE RAYS OF MERCURY ARE PARTICULARILY ACTIVE BETWEEN THE HOURS OF NINE and twelve Noon, according to your own time zone. In these hours most of us are busy preparing ourselves for the day's business, after having been prodded into action by the dynamic Rays of Mars from six until nine. In these early hours of the forenoon we are laying the patterns we expect to follow for the remaining hours of the day-time. Most of us will be in the harness of habits which we have worn for many years; the mother and housewife, the father and husband following a schedule which reduces them to a state similar to that of the machine, impersonal and automatic to a large degree-even though the duties and tasks may concern those who are a most intimate, and personal, part of our lives. Still we labor like machines, whether in the kitchen or the office or behind the counter in public marts.

This is the cold, intellectual, automatic activity of the Mercury Vibration. And it is quite necessary so long as we are but one more cog in the great impersonal Wheel of Life. There is a sense of security in our habits, a quality of protection which comes from being a unit among many, a cog in a greater wheel of life than our own immediately personal one. This is that sense of security, of protection, which the soldier feels living as a part of his regiment—and depending largely upon others to provide him with patterns of action which will contribute to his sense of being necessary to the good of the whole——in this case, his regiment, his country.

This same sense of security comes to most people when they accept the massidea of a family; when the young couple marry, bring forth a family and procede to follow the age-old habit of becoming a part of the community. This is the sense of security, and protection, which arises from most of the so-called normal activities of the human race. And so long as the person continues to follow this program of habit and tradition there is little pain or disorder in his body, little confusion in his mind, little tension within his soul—and no inspiration within his immortal spirit.

This sense of security, of personal protection and self-sufficiency derived from being a member of a static group, bound within the invincible barriers of habit---such a state is remarkably demonstrated in the Republic of Switz-erland, the land of the Temple of Mercury and its yellow intellectual Ray.

In this ideal republic (so considered by many political scholars) poverty, economic limitation, social degeneracy and the customary hardships found in most national groups are completely absent. So too is any sense of genuine individuality. More than any other nation, not excepting even the Hebrews, the people of Switzerland live, think, feel, act and manifest their life as a single unit or family. This sense of unity gives great security against all the uncertainties of new and untested paths—which are so attractive to other groups of people. And more vividly than any other blessing there is demonstrated a measure of health and physical strength which no other nation approaches in its people, save possibly some of the Scandinavian peoples, who, incidentally, are creative in a way few Swiss citizens ever become (and thus are far more liable to sickness and ills than the static Switzer.)

IN THIS MODERN AGE, SO PERFECTLY AND VIGOROUSLY DEMONSTRATED BY THE MEN and women of America, we hear a great deal about mental disorders, about so-called "psychological illnesses." These diseases all come under the definite and direct influence of Mercury, the Sixth Ray.

If a disease is genuinely psychological in its nature, if there is nothing basically, wrong with the organic structure of one's body, that is, then we must turn to Mercury for the remedy. So long as the normal patterns of the tribe, the community or the nation are adhered to strictly, there is rarely, if ever, to be found any psychological, or mental, disturbances in the members of that tribe or nation. The remarkable health and strength of our primitive, or less evolved, races depends entirely upon their altherence to the code of tribal laws ordained by their religion. And the mental balance, and its corresponding reaction in the body as strength and health, of our civilized nations, is secure only to the extent that the people willingly (and largely unconsciously) follow the traditional patterns laid down for them by preceding generations.

No where on the planet is so much psychological disorder to be found, or so much mental disease as in America. And no where on the planet is there to be found so many people who have left, or are struggling to leave, the road of the mass-consciousness bound by habit and tradition---and explore the new trails and bypaths of individuality and uniqueness.

The quest for personal accountability, for moral responsibility, in which the integrity of the individual is supreme, is a quest fraught with pain and confusion beyond anything suffered by organic sickness of the flesh body.

According to medical statistics sixty percent of the American people either have had mental treatment, or should have, to heal them of disease and disorder which is due to their efforts to break away from established patterns.

This alarming state of our social picture has led some of our authorities in mental hygiene to advocate a strong, centralized government, equipped with all powers of a dictator-state, in order to prevent, or forbid, any deviation from the status quo, the "ancient and honorably accepted ways of our ancestors," meaning, of course, the primitive races from which we have, apparently, come.

This theory is one which has long ago been put into active practice by the desperate company of wretched men who rule Russia and her Iron-curtain neighbors. And it is a theory which is rapidly gaining more and more adherents within the borders of America as each year passes and carries us closer and closer to the paralyzing grasp of Uranus, Father of the New Age and intimate confidant of Mercury, God of soulless Intellects.

(Uranus is also a 'head-center' and will be discussed in the fourth and concluding manuscript of this particular series on Etheric Healing.)

THE MOST INSIDIOUS INFLUENCES WHICH EVERY STUDENT OF THE ANCIENT WISDOMS struggles against, sooner or later, are not the forces of black magic as they are dramatically termed. They are influences of a much more subtle nature, and a nature which seems not only normal but beneficial. Many students live out their allotted span of earthly life tilting windmills, or the so-called "dark forces." They fail, tragically fail, to percieve the real source of the opposition and resistance which they are certain is being made constantly against them——by the black magicians, psychic entities and demons generally.

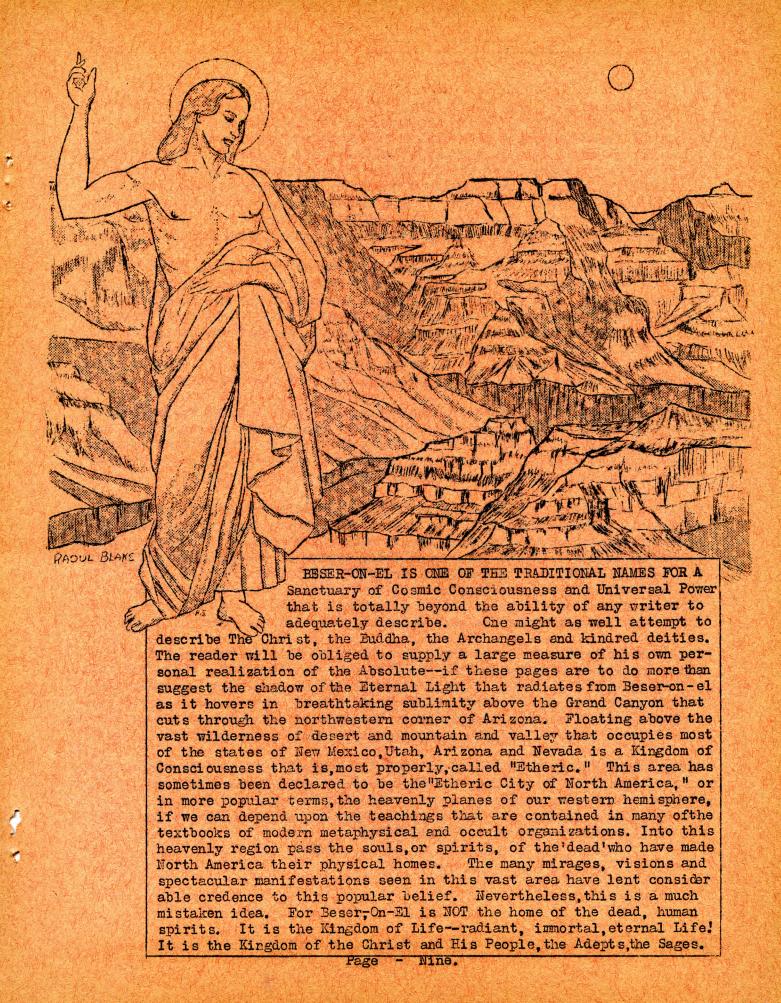

There is truly a force working against them which might properly be called evil, dark and vicious; but it has little, if anything, to do with the hosts of Invisibles who operate from the astral or psychic planes of our planets. This force is the subtle, imperceptible, delicate (but irresistible) power of human habits and social traditions. The quiet but implacable power of our personal family and domestic situations frequently succeeds far more completely in suffocating the cosmic aspirations of a student than all the legions of the fabled Dark Forces of Hell.

Tragedies without number have stricken down the hopeful neophyte who longed to scale the Olympian heights of the Cosmos---but was unable to resist, or to avoid, the fatal magnetism of family and friends, religion and nation. Hence, for this very reason The Guardians of humanity must bring cycles of civilized activity to an end---lest that civilization (built entirely upon habits and traditions of the Mass-man) forever destroy the handful of neophytes who are always chosen as channels for the New Age Manifestation.

A New Age is rapidly rising upon our American horizon; an age which will be totally incapable of projecting its ideas through the crystallized patterns of established custom, habit and tradition. Millions in America are already in the throes of the readjustment that MUST come if mankind is to survive. It is not strange, then, that in America is found millions of confused hearts and minds--struggling desperately to establish their own personal identity upon a standard of individuality that often compels them to present themselves for psychiatric, or mental, treatment. According to the standards of the Piscean Age, these unhappy people are insane. Most of them are seeking what they hopefully call the "Sixth Sense, "very confident that this new or advanced faculty will provide the solution to their painful problems. And in this hope they are sustained by an invincible intuition which has sustained every mystic, every trail-blazer, every destroyer of the old and dead patterns The Sixth Ray has often been called The Christ Ray. If it is of all ages. called the Idea, or Thought, of The Christ, it will be properly understood. It is the John-Baptist Ray, He Who Comes Before To Clear The (intellectual) Way that The Christ may, eventually, descend (from The Sun) and assume dominion in first the mind, then the heart or emotions of the consecrated student.

The psychological disorders of our unhappy age will be healed only when the radiant program of The Sun is understood and applied to our personal problems and individual struggles toward a state of consciousness that is Aquarian, and therefore supremely superior to every phase of the exhausted age of Pisces.

BESER-ON-EL, OR THE CITY-OF-THE-SUN IS TRULY THE KINGDOM OF THE CHRIST---but WHO or WHAT IS the Christ? Instantly a veritable chorus of voices is
raised at this question---each with a different, and confident, answer, for
there are as many ideas of the Christ as there are people to think about Him.
Many take their concepts of the Christ in a most serious vein which permits
of not the slightest disagreement, or variation, in another's idea or concept
of the same Universal Principle. The blood-red pages of history attest to
this inability of most Christians to consider the Christ from a point save
their own, a point that is usually steeped in bigotry, ignorance and pride.

It is inconceivable to most Christians that any other religion might possess a Christ, and a concept of His ministry, that would be superior, or more valid, than their own. We find it difficult to understand how the Buddhists can regard their Great Ehuti, or Spirit, as the highest manifestation of divinity; and we contribute millions of dollars in order to convert the benighted heathen and "wash them in the blood of the Lamb," sometimes forcibly—in order to save their immortal souls." In other words, we insist on all mankind taking our concept of the Christ and following in our (not His) footsteps.

When Christians have slaughtered Christians in a vain attempt to force their particular idea of the Christ upon the world, what mercy may one expect from such ecclesiastical dictators should one attempt, as am I, to present several aspects of the Christ-Idea which are in total disagreement, if not defiance, with both ancient and so-called modern concepts of His divinity???

Though I have been in possession of this information for several years, it is only since Christmass of 1953 that I have been endeavoring to share this incredible concept of the Aquarian Christ with the student-body of America. And I have consented to offer this astonishing system of the Etherian Peoples, or the Beings of Space, only because I now realize that the Piscean, or Christian, concepts of the World-Teacher will fail utterly to solve the problems of this New Age as surely as it failed to solve those problems of the past eras which have brought us to the very brink of planetary and personal dissolution.

Please grant me the favor of carefully observing this distinction: I am NOT rejecting, renouncing, repudiating the Christ. Far from it! But I AM, with all the power of my being, I AM rejecting, renouncing, repudiating every idea every concept and every theory established by both ancient and modern Christianity and its fantastic assortment of theological authorities! Every concept that attempts to explain the essential nature, and ministry, of the Christ!

Modern Christianity is composed of over two hundred different branches, or sects; each of these separate churches insist that they have the only true, accurate legitimate interpretation of Christianity—as laid down by its own founder. Jesus Christ. Which of these separate, warring, competing churches are we to accect as the most reliable?????

AS THE NEW AGE OF AQUARIUS PROCEDED INTO MANIFESTATION IT PRODUCED A gigantic development in the material sciences, foremost of which has been the use of the atom as a weapon and element of motive power. This has released into the use of mankind, for good or ill, forces which may prove to be beyond our ability to control. Material science is reborn!

And in the laboratory of the occult scientist equally overwhelming news and rumors have emanated from the magic retort of the human mind. Laws of power and manifestation not only of an atomic, but a cosmic, character have been discovered which rivals anything the angels might have dared to dream. For not only has the material heart of the atom been revealed its very soul has been apprehended, its spirit has been captured!

These are not fanciful phrases, spoken in symbol and set in allegory. They are words of Truth, words of Law, words of Redemption. There will be many who will scoff at the thought of an atom having a soul or spirit. However, there were millions who, but a short time ago, scoffed at the idea that such an invisible, intangible, theoretical point of light, an atom, could itself exist—except in the absurd imagination of visionary men. In spite of such doubts in the mass—mind, a few mystic thinkers persisted in their efforts not only to find an atom, but to split it up into its component points of light! As a result the atom-bomb of today is something the most bigoted scoffer dare not deny, or belittle.

Every great advance in material science is balanced by an equally great advance in spiritual or mystical or divine science (using all these terms advisedly, and until we are supplied with more proper ones,) that has, in the final analysis proved to be the exact "Inner" counterpart of the "outer" or material revelation. Stated simply: When a vast physical force has been released into the use of mankind, a vast mental or psychic force has been provided——for all who wish to use it to protect themselves from the disasterous activities of the Physical force.

Hovering in the etheric atmosphere above the Grand Canyon of Arizona may be seen Beser-On-El. The City of the Sun. This is the astral counterpart of the magnificent kingdom of the Ancients called in the Bible. Sodom and Gomorrah. In HARMONICS T-8 a detailed explanation of this fabulous city is given for the benefit of the serious student, and space will not be used here to repeat it since the subject is rather technical. I will mention only the cosmic eruption which brought the destruction of this prehistoric kingdom in which "God could find not ten men good and true." These strange storms of psychic force are no longer regarded as myths by men of physical science. Scholars from Yale University have accumulated conclusive evidence of the activities of cosmic eruptions down through the ages. Various scientists, of substantial reputations, have produced evidence of many astronomical and planetary manifestations which took place in perfect accord with the descriptions recorded in the Bible and other Sacred Scriptures. Hence, let he who would scoff at our warnings, remember the fate of past ages. Eleven. Page

TO SAY THAT THE SOUL OF THE ATOM HAS BEEN APPREHENDED. THE SPIRIT OF THE atom captured, is not to speak lightly or irresponsibly——but truly! For in order to bring the New Age to pass, in all the different planes of human activity. The Great Cosmic Guardians of our solar system are trying to prepare enough of us to consciously, and methodically, recieve the first downpouring, outpouring, of celestial or cosmic energies destined to crystalize the New Aquarian Cycle into its strange and peculiar patterns.

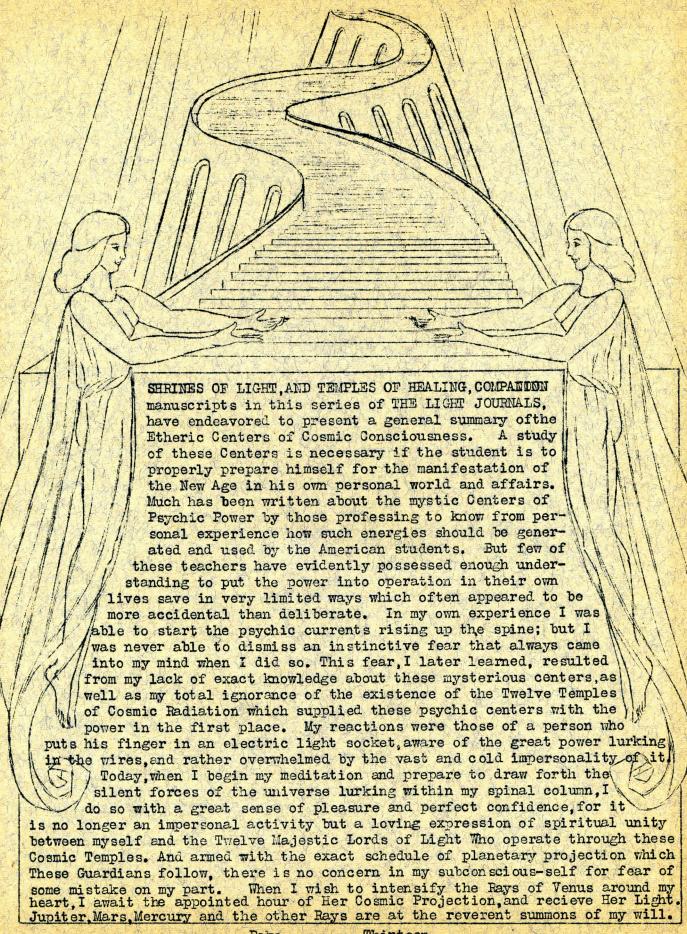

Now the force which manifests in these cosmic eruptions, or inter-planetary tidal waves, is a physical or material force——and it is also a psychic or mental energy. The forces which are invoked in the seance—room to produce the phenomena of materialization, of apports and such, are physical or material forces. But they also contain certain elements of energy that must be regarded as mental, psychic or astral, in their ultimate natures. We might call such activities a combination of inner and outer forces, of material and spiritual power, or, if you insist, human and divine agencies. At any rate there is a duality of power, a positive and negative hookup so to say. But the important point is this: there is an affinity between these two forces which, when taken together, makes their power even greater than when separated. (Actually there is never any separation; only an intellectual distinction which we unwisely make in our response to these two forces of life, or God.)

One of these forces emanates from our mind and emotions—in a constant, intense stream of magnetized light. The other force radiates, constantly and intensely, from The Sun. These two forces, inner and outer, mental and material, MUST be balanced and harmonized——if we, as individuals, as earthians, are to comfortably, profitably, survive the approaching cosmic eruption.

The fiery magnetism radiating from The Sun is daily growing more intense. Two causes for this are known to students: first, our system is rapidly passing into a new and more electrified area of the universe, the Red Shift; and secondly, vast layers of protective matter enfolding our planet have been destroyed by the experimental explosions of the various atomic bombs. All of this is producing, around our planet, a condition very similar to a state frequently met by the student of psychic matters who observes how narcotics or alcohol will destroy the protective web of etheric matter in the auraleaving the person the helpless victim of any psychic forces which approach him. When the protective envelope around our aura, or around our planet, is damaged it is a matter of the utmost concern to our Spiritual Guardians.

Only a proper understanding of the true nature of The Christ, and His Power, can heal the gigantic ruptures in the aura of our planet—and in millions of human auras. Only a prompt study, and application, of the magnetic rays of The Sun can prevent our entire earth from becoming an etheric memory—a planetary Beser-Cn-El---whose fate will be recounted down the unborn ages to the children of humanities upon planets yet to be created. Yet so great is the wisdom of The Guardians that one hour each day, in reverent application of Their Instructions, will provide each of us with the magic needed to become, truly, Children of the Sun, Lords of the Christ Light. Even YOU!

Page — Twelve.

THE COSMIC FORCE WHICH WE SEE MANIFESTING IN THE LIGHTENING BOLT AS IT IS hurled out of the dark storm cloud is a force we would all hesitate to come to grips with. And certainly we hesitate to draw such forces into our human bodies, even though we are anxious for the tremendous benefits which we have believed they would bestow upon us. In most of the textbooks explaining to us something of the nature of the occult forces, which move through the seven psychic centers along our spine, we have read that the power is cosmic in its nature and infinite in its strength. Small wonder then that students always have been uncertain of their abilities to control such universal currents.

Until the Great Etheric Guardians recently revealed to mankind the existence of the Twelve Temples of Cosmic Power, nothing of a positive nature was seen or understood about them. The fact of their existence has been accepted, or suspected, by alert students of many lands. The experience of astral travel, dreams and psychic impressions in general have frequently contained glimpses of these magnificent storehouses of Universal Energy; but most of us were uncertain as to the reliability of our psychic impressions and dreams, and the Temples still remained in the realm of conjecture—and hope.

Then with the Advent of the Space-ships, and their remarkable inhabitants, we began to notice certain tie-ups between these Visitors and definite parts of our globe. My own observations began as far back as 1936, when I spent the winter months in the Grand Teton Park, of Wyoming. This area, together with the Yellowstone Park just to the north, comprises one of the secondary temple districts. (The Twelve Major Temple Lands each have twelve minor areas that recieve the power from the planets. This makes 144 minor temples or areas of magnetic sensitivity which are being used to being in the New Age of Etheric Consciousness throughout our planet.)

Later, when the phenomenon of the Space-ships became an established fact, my private records quickly showed a systematic activity between the Saucers and particular parts of the world which could not be coincidence. Today, after having proved my ability to retain Their confidential instruction in occult law, I am able to predict various activities in certain nations long in advance—because of the understanding I have finally achieved concerning these great projections of cosmic energy from the Etheric Sanctuaries of the Elder Brothers of the Christ-Way.

If you are fortunate enough to be reading these pages out in your garden, or better still out in the quiet and beauty of some countriside spot, my words will have much more meaning for you than if you must read within the walls We pay a terrible price for of your home --- however beautiful that may be. MY REFERENCE TO NATURE IS ENTIRELY RELATIVE AND PERTINENT TO OUR SUBJECT of the Temples of Cosmic Consciousness; for when we touch these Sanctuaries of Infinite Energy we are touching a very real aspect of Mother Nature, herself. The people of the forests and mountains may be, in your estimation, living a life of inconsequence and involuntary harship, and, from your standpoint, they may be unimportant in the great assembly of so-called civilized nations. And, being a member of the greatest race on earth, you are probably not aware of the fact that four-fifths of mankind live in what is, to you, a very primitive or barbaric state of daily existence. Yet in spite of all their hardships and struggles to wrest a living from nature these hundreds of millions of human beings are actually not unhappy. And these people, the vast majority of mankind, possess a peculiar understanding of nature which you have doubtless never approached.

To the average civilized man and woman in America, nature is a thing apart from their daily and personal lives. It is something to be enjoyed when they have a day or two they can spend in the auto taking a trip. It rarely occurs to us that when we look upon the mountains, the seas, the valleys and vast deserts of our planets—that we are actually looking upon a part of ourselves. (And of course there will now be those sweet souls who will insist that: "Oh, Yes! I've always felt SO close to nature, so close to God." But these blessed people couldn't live a month without the conveniences of our civilized state, their electric-icers and Television and such.)

Nor is it enough to go to the mountains or desert in order to breathe the fresh air and get a good sleep (after we have spent the evening reading the novel we brought along.) And no amount of Oh-ing and Ah-ing over the wonderful sunsets, the clouds, the "vastitudes" of nature will take the place of actually renewing your body, recharging your mind and renovating your emotions by a systematic absorption of the magnetism of nature. We must turn to nature with the definite purpose of replenishing our self with those identical elements which fill the very cells of our flesh. This is to be done according to a fixed schedule, a time-table. There are those who will insist that "God is here, there and everywhere" and can be reached at any time any place. Aside from the touchy fact that these people never seem to reach Him, such an attitude is not only unscientific—it is childish and absurd.

The great primitive majority of mankind, the so-called backward races, have no difficulty in considering their God a very complex and highly organized Intelligence. Nor do they find it inconsistent with logic to believe that in order to manifest the various aspects of His Being God should do so according to a systematic schedule which will allow time for all of His powers to be given expression. This explains the great number of holydays, times of festivals and fun, days of ceremonial consecration and special worship. Also, we find that the day itself is frequently divided into periods, each of them being designed to provide an opportunity for the human to touch the divine. Even a superficial study of the traditions and customs of the primitive men will provide abundant evidence that these people know much about the Cosmic Schedule used by the Divine Guardians of our planet. This schedule is kept religiously by four-fifths of the human race. Might it not, therefore, be a trifle pompous for a good Christian to dismiss the Temples as silly nonsense? When hundreds of millions of other "Children of God" have been following HIS Cosmic Schedule in their daily lives for generations of generations??????

WHEN SO VAST A GROUP OF PEOPLE, AS THAT WHICH IS MADE OF THE LESS CIVILIZE ed races, follows their pursuit of life according to a traditional schedule which places all of the attributes of God, or Nature, upon their altars of reverence and worship---surely so vast an impulse implies a fundamental direction, a basic instinct, a universal purpose. And this purpose is to provide humanity with the energies and ideas necessary for its best development. The fact that in the jungles and wildernesses we find the most perfect specimans of physical form should certainly impress us, of the superior races, with the physiological values of living as the beasts and birds live.

And lest your Christian conscience prick you too painfully, consider those emminently pertinent, and practical, suggestions: "Take ye no thought for tomorrow. Consider the lillies of the fields--which spin not, neither toil!"

When the student finally learns of the magnificent Plan of Living, which he may follow at any moment he chooses, that the Guardians of Mankind have provided for him, he may indeed toil not, nor spin, nor take thought of tomorrow. And yet he will have everything he needs, all that he desires, and an abundance left over---for his fellow-man. How so?

The Seven Dynamic Rays of Consciousness which must be taken into his body, by way of the spinal column, will provide him with everything he seeks for his personal wellfare and individual satisfaction. These Seven Rays are the Seven Churches of the New Testament. And their radiant powers project over the globe, and into its people, according to a divine schedule. When we arrange our personal lives in close, and reverent, harmony with this schedule, this Cosmic Plan for Personal Perfection, we shall live as lived The Christ and His little band of enthusiastic disciples. And we shall have health, and happiness and wisdom and wealth—abundantly pressed down and running over. This, of course, is too good to be true. It sounds like too much of something for nothing. Yet it is true. It is a basic law of life.

For those of youwho wish to begin immediately to put your house in order, to arrange your schedule of life in accordance with the Divine Plan of the Guardians, I am repeating here the Hours of Harmony you are to follow:

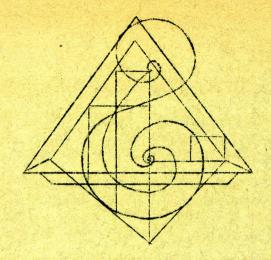

MARS: SOLAR PLEXUS: 6 to 9 A.M. MERCURY: BROW CENTER: 9 to 12 A.M.

The LODGE OF LIGHT

THE GENERAL CONVICTION IS THAT HUMANITY STANDS NOW AT THE BRINK OF total annihilation through atomic warfare. Because of this thousands of Spiritual-Students are preparing to protect their own personal lives and affairs from the inevitable collapse of modern civilization. If war comes again, such a collapse is inescapable.

Assistance and protection from The Etheric Guardians of our earth is our single hope of surviving this Aquarian catastrophe. The skill and genius of these "Mastersofthe Wisdom" is available to all of us who are realistic enough to read the writing on the walls of our time.

The LODGE OF LIGHT is an assembly of philosophers drawn together by the critical developments in these last days of the Piscean Epoch. Under leadership of GERALD-LIGHT chapters of The Lodge are being founded throughout America. These Centers of Light will provide Occult-Students with a workable knowledge of THE ETHERIANS, or the so-called "Space-Peoples" and Their inter-planetary civilizations.

From these hitherto unknown regions of ETHERIA, surrounding our own earth-plane, help and happiness are being offered to every sincere Student of New Age Principles of Personal Progress and Perfection.

Through the medium of <u>HARMONICS</u>, a series of Occult Instructions received from The Etheric Guardians of earth, The LODGE OF LIGHT offers an immediately useful plan for your progress and protection. These Aquarian Principles of Power are provided in monthly Lessons, Bulletins and Brochures which are available to you upon receipt of written application for membership in Lodge of Light. Admission as a Member of Light is offered without charge or dues or donations. HARMONICS literature is available at one dollar per monthly lesson.

NOTE: The geometrical figure at the top is the Great Seal of the Lodge of Light. This Astral Sigil was first devised in 1256 by Albertus Magnus, the renowned alchemist-philosopher. It is used today by his lineal descendant in The Lodge of Light in America.

HARMONICS

HARMONICS IS THE MODERN APPLICATION OF THE ANCIENT WISDOM RELIGION OF EMPLERIA.

The Science of HARMONICS has, as one of its major goals, an attempt to raise the whole of Reality to one Basic Formula. It seeks to include both the human and the Divine Nature within the framework of a unified mathematical system.

A study of this all-inclusive System enables us to understand what "God" is now waiting to do for us, and shows us how toco-operate with Life to achieve the ultimate goal of all human endeavors, that is: the Union of the lower nature with the Higher Self, a literal transmutation of the human into the Divine.

The word HARMONICS will henceforth serve to identify this special and specific movement of The Etheric Brothers as one of Their major channels of Instruction for the remainder of this Century of Uncertainty in our solar system.

The Philosophic System of HARMONICS shows us the proper relation of all the parts to the whole. It pinpoints our place, as future Initiates, in the entire Evolutionary Pattern and Program of the Divine-Mind-Heart-Spirit.

HARMONICS provides us, further, with a Method for Self-development that will surpass our present state of consciousness and limited human activities. At this point the scientific aspect of HARMONICS gives way to the ART of HARMONICS, as we put into practice its formulae; and become individual creators.

If the Harmonic Formula is applied the results are certain to be achieved. The time element will depend upon the intensity of the Desire and the strength of the Personal Will, in each Student of this Modern Science of Balance.

The Science and Art of HARMONICS is two-fold in its action: It seeks first to harmonize the Individuals lower nature with his Higher Self. By so doing it will eventually harmonize the affairs of communities and nations.

FIRST, each of us must harmonize and balance our own personal worlds and lives. Then, and not until then, will world balance and harmony be achieved! Your problems thus become the problems of Humanity. And, more importantly, the trials of Humanity become part of your personal responsibility and concern. HARMONICS is thus the answer to your problems. And HARMONICS is also the solution of the worlds problems—since each of us make up the complete world.

HARMONICS IS THE CHANNEL OF LIGHT FROM THE FLDER BROTHERS OF UPPER-ETHERIA (And HARMONICS is the open doorway into your own personal, eternal Freedom.)

The thirty-six Lessons in HARMONICS, together with the Brochures & Bulletins, are sufficient to establish your life and affairs on the changeless foundations of the Harmonic Law of Personal and Individual Balance. And this is Perfection.
